

## IHS Haystack Gold and ISO Group - Supply Chain Velocity<sup>2</sup>

When your mission is to ensure materiel readiness and sustainability for your operations, time and cost are critical concerns. Retrieving relevant results quickly and the ability to procure your list of parts is vital to the success of your mission.

IHS and ISO Group have developed a tool to research and order parts directly from within the IHS Haystack Gold interface. The IHS Haystack Gold solution provides detailed information on NSNs, parts and their suppliers. The ISO Group brings access to their global supply chain and preferred supplier status. The combined efforts of these two global organizations can support your mission at every checkpoint, from researching parts to purchasing them.

### **What are the steps to a successful parts purchase?**

When you log into IHS Haystack Gold, you are accessing information on over 189 million parts, including all of the items in the US, UK, and Canadian Supply Catalogs. With the latest release of IHS Haystack Gold, you have the additional capability of:

- Uploading a single part number or parts list and submitting an RFQ to ISO Group.
- Receiving instant RFQ confirmation and a quotation within 24 hours.
- Reviewing your quote and order history.
- Ordering and obtaining the part(s) you need, inspected, packaged and delivered by ISO Group.

## Who is ISO Group?

ISO Group is an integral provider of parts logistics for the aerospace and defense industries and delivers spare parts worldwide from a global vendor network of over 1.3 million suppliers. They design and deliver engineered solutions to prime contractors, MRO facilities, FMS, DLA, and all defense industry maintenance levels (depot, intermediate and organization).

The knowledgeable team at ISO Group provides a dependable sustainment channel while maintaining a proprietary list of spare parts data. They offer a dynamic, efficient quoting and delivery system of parts, ensuring that operations can remain on schedule and within budget.

ISO Group assists buyers in over 80 countries and has developed a global network of locations with facilities to support the US, Europe, the Middle-East, Africa and Asia. Their pre-designed logistics solutions are supported by global freight companies, employ international tools, and offer a consistent approach to reliable deliveries.

## What is the measure of your success in getting the part you need from a source you trust?

The partnership between IHS Haystack Gold and ISO Group offers you the opportunity to complete your supply chain needs quickly, securely and easily. A simple registration process allows you to track your quote requests and purchases whether it is for one part or hundreds. You can also review the status of your quote or quote history at any time, directly from the Haystack interface.

The combined efforts complete the supply chain by providing users the ability to:

- Research Parts
- Locate Parts
- Order Parts
- Have the parts inspected, packaged and shipped directly to them.
